

**August 1, 2022 [to All students and Faculty Members of Tenri University]
Regarding class style after July 13 (Wednesday)**

Tenri University Novel Coronavirus Emergency Response Headquarters
Director-general (President) Noriaki Nagao

We have decided the following at the 41st Novel Coronavirus Emergency Response Headquarters Meeting:

1. Regarding the activity guideline

Comprehensively judging the current infection status in Nara Prefecture and the neighboring prefectures, Tenri University will continue the activity guideline phase as “II.”

Tenri University’s activity guideline is as follows:

2. Regarding limits to the usage time of on-campus facilities

Regarding on-campus facility usage, please refer to the chart below.

The infection of the COVID-19 has not ended, so please take measures as before to prevent infection.

Students, faculty, and staff are requested to fill out the health checklist and behavior record chart.

3. Please continue to take thorough measures to reduce the risk of infection and give consideration to infection prevention.

The number of infected people is increasing nationwide. Each one of us must constantly take infection control measures seriously and break the chain of infection. The Nara Prefecture homepage linked below calls for thorough efforts to reduce the risk of infection and consideration for infection prevention. Please refer to the link and be sure to be responsible in taking preventive measures for infection on your own.

4. If you feel unwell

If you feel unwell, please check the “<Tenri University> Coronavirus Infectious Disease Response Flow Chart” and contact the instructor in charge of the class or the Student Affairs Section to consult about the class you are taking.
